"So it turns out that Beebe was killed by Charles Shepperd, who we sent to the enitentiary for passing counterfeit money, April 22 1863, and was pardoned May 8th 1853. He is one of the most unaccountable young men I ever saw. He broke our jail, strong and famous as it is, twice. The last time, for ingenuity of contrivance and successful execution, he rivalled any exploit of the renewned Jack Shepperd, of Newgate memory, from whom I presume he has lineally descended. The first time he was met at the gate of the jail yard by a man who attempted to seize him and was knocked down by Shepperd, who ran, pursued by others; he frequently turned and struck at the foremost person, made him recoil, and then run on again, and so escaped. For powers of bodily endurance, action, promptness, presence of Rakes, Sythes, Snaths. White's Double Steel oursued by others; he frequently turned rance, action, promptness, presence of mind, and daring resolution, his equal can-not be found in this country. His fertility of invention, fruitful resources and ingenuity in jail breaking throws Baron Trenck in the shade. One of our citizens saw him get on the cars one day last week, between here and Cincinnati. He has his right hand tied up. The butts of two pistols were seen projecting from his inside cost pockets, and the handle of a bowie knife from his bosom. He appeared very much fatigued. The manner in which he was armed was noticed by other passengers. Your county jail could not hold him long, unless constantly watched and guarded. He has caused the Sheriff to lose more sleep than all the prisoners he Chisels, extra Cast Steel Augurs, ever had under his charge; and with all Bench and Molding Plains, Bitta, he could do, he escaped thus, as I have

### To County Auditors and Township Boards of Education.

OFFICE COMMISSIONER CON. SCHOOLS, ? Columbus, Ohio, April, 1854.

The great number of questions arising under the present School Law, and the importance of having a thorough under-standing by its afficers, of the provisions of the law, and a uniform policy pursued in all the counties, in its administration, have impesed the necessity of having some meditan of communication with these officers; and the Commissioner has gladly availed himself of the use of the Ohio Journal of Education for this purpose.

All my official decisions and opinions have been, and will continue to be, publish-I in the Journal; and it is my opinion that County Auditors will be justified in subscribing for a copy for their own use, and one (or more) for the Board of School Examiners; and that township boards may order it for the township clerk, and the clerk of each sub district, and include the cost of the same, in their annual estimate of money to be raised, in accordance with the first clause of the 22d section of the School Law.

The copies so taken should, of course, a kept on file in the expensive officers. and be transmitted to their successors in

The cast of the Journal, is \$1,00 per year. It is published monthly, in a form suitable for binding: it may be secured by addressing Journal of Education, Columbus, O.

Editors throughout the State, by publishing the above, will confer a favor on School Officers, and greatly abridge the official correspondence of the subscriber.
